# ERP For Importers

"Foundation 3000™ software from Softrend Systems handles all our daily needs. With Foundation we are always one step ahead of the competition."

James Norton,  
Enterprise Paper

"When Softrend introduced Foundation, we quickly found a way to accommodate our business processes which greatly reduced the amount of manual attention required."

Brian Cole,  
Celpast Packaging

Foundation 3000™ is a fully integrated business software solution that makes life for an Importer much more efficient and is designed to help you cut costs and generate revenues. In addition to our strong financial functionality, here is what we offer:

- **Gordon Graham Inventory Management System** - helps you know your customers' buying patterns and ensures you are buying and stocking the right inventory at the right time - saving you money.
- Detailed and flexible **landed cost** calculations. Apply multiple charges from multiple vendors to one P.O. Can be distributed based on weight, volume or dollar value and can be matched in A/P.
- Multi-warehouse, multi-currency, multi-company, with multi-UOM, catch weights, kitting, options, attributes, **lot and serial** tracking, and MSDS info for your **inventory**.
