

Jan-San, Paper Products & Packaging Distributors

SOFTREND
SYSTEMS INC.

"Foundation 3000™ software from Softrend Systems handles all our daily needs. With Foundation we are always one step ahead of the competition."

James Norton,
Enterprise Paper

"Inventory catch weights and vendor claimbacks proved to be a headache for us. When Softrend introduced Foundation, we quickly found a way to accommodate our business processes which greatly reduced the amount of manual attention required."

Brian Cole,
Celpast Packaging

Foundation 3000™ is a fully integrated business software solution that was built from the ground up for Jan-San, Paper Products and Packaging Distributors and is designed to help you cut costs and generate revenues. In addition to our strong financial functionality, here is what we offer:

- **Gordon Graham Inventory Management System** - helps you know your customers' buying patterns and ensures you are buying and stocking the right inventory at the right time - saving you money.
- Multi-warehouse, multi-currency, multi-company, with multi-UOM, catch weights, kitting, options, attributes, **lot and serial tracking**, and MSDS info for your **inventory**.
- Detailed and flexible **landed cost** calculations and **container management** for your purchases.
- Extensive and easy to update customer tiered **pricing plus rebates and claimbacks** that work the way you need them to.
- Built in **EDI** Software that allows you to transmit transactions and documents electronically with your customers and suppliers. All you need is your VAN. Many standard mappings available.
- **Remote sales** - have your reps view history and take orders from the road on their smart phones or laptops in real time or off line.
- **Mobile delivery** option lets your drivers see their deliveries and get proof of delivery in real time.

- **Fax & email** documents from within the system.
- Direct connection to major carriers for sharing of **shipment** info and tracking numbers.
- **Warehouse Management** - Transact using wireless devices and various methods of picking orders.
- Additional functionality for **Field Service, Rentals, Job Costing, and Manufacturing** included in base system.
- Manage your customers, sales reps and opportunities with our built in **CRM** and Contact Management.
- On-line product **catalogues** and Internet **Web Store**
- **Business Intelligence** - Management reporting complete with KPI's, graphs, measurements, etc.
